

A GLOBAL HUB FOR DIGITAL INNOVATION

Establishing an IT International Business Company with RAK ICC

Information technology (IT) is a booming industry sector and the enormous government support towards IT, artificial intelligence (AI), and innovation makes the UAE at the forefront. This progressive approach for fostering innovation has been a major influence for blockchain startups, making the UAE an attractive jurisdiction for blockchain, fintech, and fintech companies.

With a progressive and supportive regulatory environment, a strong pool of industry talent, and an ecosystem that provides access to capital, resources, and opportunities to fintech startups, the UAE is perfectly placed to support fintech startups and advance global trade.
